

Addendum One
RFA for WIC Services
March 2, 2012

Following are the questions submitted and answers provided for the above mentioned Request For Application. The questions and answers are to be considered as part of the Request For Application.

Questions	Answers
<p>1. We are interested in serving Dodge and Washington counties and will be completing an RFA for those counties. Can you tell me what the caseload is for each county? Do you know if Immunizations will have any changes for Dodge county or if it will stay served as is? To clarify my request for clients being served. How many clients by category and race/ethnicity are being served for Dodge county and also for Washington county?</p>	<p>WIC caseload by county is found in Section 3.08. Caseload on page 30. See Attachment One of this Addendum for WIC caseload by category and race/ethnicity.</p> <p>The Immunization Program is not a part of this RFA.</p>
<p>2. On Appendix 2, it states that a minimum of one CPA on staff must be a registered dietitian OR a masters-level nutritionist? What is the definition of a masters-level nutritionist? Would an individual with a bachelor's degree in nutrition (greater than 15 hours in human nutrition coursework) and a master's degree in public health meet these qualifications? If so, does that mean that a registered dietitian not need to be on staff or contracted?</p>	<p>A masters-level nutritionist is defined as an individual holding a master's degree in the field of nutrition from an accredited college or university. An individual with a bachelor's degree in nutrition and a master's degree in public health would not meet the qualifications of a masters-level nutritionist. The WIC Agency is required to have a registered dietitian or masters-level nutritionist on staff or contracted.</p> <p>More information about WIC nutrition services staffing may be found in USDA's WIC Nutrition Services Standards at: http://www.fns.usda.gov/wic/benefitsandservices/nutritionservicesstds.HTM</p>
<p>3. I had a question about eligible applicants from page 3 of the RFA. OneWorld Community Health</p>	<p>Federally qualified health centers are eligible applicants for this RFA. See Section 1.01 C. Eligible Applicants on page 3.</p>

Centers is a federally qualified health center in Omaha, but we are considering starting a WIC clinic in Dodge County in Fremont because of the high volume of patients we see from that area. Are we eligible under this RFA?
